

The Intelligentsia, Governance & Globalization

by John Kuhn Bleimaier

Definition and history of the intelligentsia

The Global crisis

Demography & crisis

Why does the intelligentsia matter?

The intelligentsia & democracy

Democracy and small units

Self determination & democracy

Globalization as an economic rather than political phenomenon

Inefficiency of democracy & self determination

Globalization vs. internationalism

Globalization & rational allocation of production, research & consumption

International media & globalization

The intelligentsia, individualism, freedom of conscience

Tolstoy, the archetypical member of the intelligentsia

Extrapolating Tolstoy's ideas into the 21st century

Globalization & the myth of maximized economic efficiency

The benefits of a balanced economy

Globalization: closer to imperialism than to internationalism

Terrorism, state terrorism and the brave new world

Globalized debt & equity markets impact freedom

Globalization requires centralized, concentrated power

Globalization: the antithesis of both nationalism & internationalism

The Solution
